01 / PROFILE

Senior product designer with 7+ years in product design, 5+ in fintech and Web3, leading design for crypto and AI-powered financial platforms at D24 Fintech Group. Leads a team of 6 designers and owns the design system that five shipped platforms and 20+ engineers build from. Also designs and builds independent products end to end. Mizan and Orfyx are live.

02 / EXPERIENCE

Senior UI/UX Designer at D24 Fintech Group

Nov 2021 - Now · Dubai, UAE

- **Platform scale:** Lead UX for crypto and AI-powered financial platforms serving 400K+ verified users across 150+ countries, turning dense trading and market data into clear, trusted interfaces.
- **Design leadership:** Lead a team of 6 designers: setting design direction, running critique and design review, and mentoring across the product suite.
- **Flagship product:** Designed and shipped BitDelta, the group's flagship exchange and trading product, across web and mobile, then the white-label platforms built on it (DIFX, DoshFX, OFZA, Visiion), each launched in two weeks or less.
- **Money-in flows:** Designed buy crypto, fiat deposit, wallet onboarding and KYC end to end: the flows every new user passes through before their first trade.
- **Design system:** Built and own the design system and developer handoff process across the product suite, giving 20+ engineers a single source of truth.

UI/UX Designer at VIC Worldwide

Mar 2021 - Nov 2021 · Dubai, UAE

- **Product ownership:** Owned design end to end for VIC's tourism product: concept, wireframes, high-fidelity UI and implementation support.
- **Stakeholder work:** Turned business requirements into shippable interfaces, working directly with stakeholders.

UI/UX Designer at Synclovis Systems

Mar 2020 - Mar 2021 · Bengaluru, India

- **Client products:** Designed web and mobile interfaces across 5+ client products, and ran the user research (interviews and usability testing) that shaped them.

UI Designer at Crazydes Design Studio

Mar 2019 - Mar 2020 · Kochi, India

- **Multi-platform UI:** Designed interfaces across web, tablet, mobile and interactive touchpoints for 10+ brand and agency clients.
- **UI standards:** Set and maintained UI standards across teams, working alongside product managers, researchers and developers in agile delivery.

03 / SELECTED WORK

01 **MIZAN** ● LIVE — mizan-price.com

Fair-price transparency for the UAE: advertised list prices laid over what residents actually pay, with a fair-or-steep verdict. Built solo end to end: concept, pricing data model and collection method, interface and production frontend.

02 **ORFYX** ● LIVE — orfyx.com

Premium pay-per-visit fitness pass for the UAE and India. Designed and built both sides end to end: a consumer app for gym discovery, booking and QR entry, plus the owner-side dashboard for venue verification and management.

03 **BITDELTA** ● LIVE — bitdelta.com bitdelta.pro bitdelta.in

Designed in-house at D24: three trading products (BitDelta, Pro and India) on one design system, web and mobile.

04 **PUNARNAVAM & ARABIAN MIST** ● LIVE — punarnavamayur.com arabianmistperfumes.com

Brand identity and storefront for an Ayurvedic healing retreat in Kerala and a UAE luxury perfume house.

04 / SKILLS

DESIGN	Figma, design systems, interaction design, prototyping and motion (Framer), developer handoff
BUILD	HTML, CSS, JavaScript, React, production frontends, AI-assisted development (Claude Code)
METHODS	Product thinking, zero-to-one product design, user research, usability testing, design leadership
